DETAILS INFORMATION ON COMPLIANCE:

MEDICAL & DAY-CARE CENTERS: Pacific A-1 sweater Ltd maintains in all its production facilities Medical and day care centers. Full time Doctors and professional paramedics are employed to attend medical emergencies as well as general health complaints of the workers free of charge.

DINING AND PRAYER ROOM FACILITY: Dining and prayer are available in our factory male and female separately.

DOCTOR'S FACILITY: One doctor and nurses are always available for medical treatment. In addition we ensure the availability of sufficient medicines and provide all the necessary treatment of the workers in the factory.

HEALTH AND SAFETY: This is a major concern of our factory we check on a regular basis. In order to ensure that all electric lines and equipments are safe. Our factory has fire evacuation plans and each floor and regular fire drills are carried out and timed. Our factory is a totally no smoking place and there are required number of fire extinguishers. And fire alarm bells are installed in different places of the building and those are regularly checked by our concern person.

ACCESS AND EXIT FACILITY: Both factory buildings have two wide stairs.

ETP FACILITY: We have an ETP plan which covers the Buyer's stranded.

ELECTRICITY FACILITY : Besides government facilities of electricity we have our own 1000 KVA stand by generators in both the units to keep full stream of production in all time.

NO CHILD LABOUR: All workers are working in the factory above the age of 18. All workers are given written declaration of their age. If there is any doubt regarding their age they are examined or verified by the civil surgeons of Bangladesh. This is the procedure of labor law. So there is no child in our factory.

BROKEN NEEDLE RECORD PROCEDURE: The store officer maintains the broken

Pacific A-1 Group

PACIFIC A-1 SWEATER LTD.

needles record and he is the only person issues the needles and receives the broken Needles from the operators. We maintain a register book section-wise for these broken needles.

METAL DETECTOR MACHINE: We check our garments with metal detector machines. This procedure is done after poly procedure of the garments. If any garments is Contaminated with metal, we then find out the metal from the garment and maintain a register for these metal. Unfortunately if the metal is found in the garment then we destroy that particular garment. After passing through the detector, we keep the garments in an export carton and a metal checked seal is given on carton so that we can sort out the metal checked carton.

BUTTON PULL TEST MACHINE: We check our garments with pull test machine specially Kids garments also check mens & ladies if buyer required.

OIL SPOT REMOVER MACHINE: Oil spot is a major problem for garments, which have a bad effect on quality. So we have improved oil spot remover machine and also take care with other section to ensure oil spot free garments.

DUST REMOVER MACHINE: Dust removing procedure is not manually in our factory. We have imported dust remover machine to export dust free goods.

Moisture Meter Machine: We check our garments always with moisture meter machine avoid moisture in the garment.

CHILD CARE ROOM: We have child care facility for all kids and special take care Them.
